# Abstract of the Disclosure

The present invention is directed to 2,6-disubstituted piperidine and piperazine analogs having the following general formula:

$$\begin{array}{c} R^2 \\ | \\ Z \\ \end{array}$$

Ar—Y^2—X^2—6—N—2—X^1—Y^1—Ar

$$\begin{array}{c} | \\ R^1 \end{array}$$

which are used to treat diseases of the central nervous system, drug abuse, and withdrawal therefrom as well as treating eating disorders.
